the effect of STERLING'S AMBROSIA in eigenstands.

This is to certify that, about eighteen months ago, I commenced using STERLING'S AMBROSIA. My hair was short, thin, and rapidly failing out. I had tried many Hair Tonica, Invigorators, &c. without receiving any benefit. Soon after using the Ambrosia, my hair ceased falling out, and commenced growing so rapidly as to stonish me. Now my hair is thick, soft and glossy, and is five feet four inches in length—when let down reaching the floor. This wenderful result I attribute soiely to the use of Straums's Amskosia, as since I commenced using it I have applied nothing clase to my hair.

#### CARE L'S HARTC C CANDIES A SAFE, RELIABLE AND

THOROUGH FAMILY PHYSIC

NEVER, since the dawn vilzation, has there been recorded such an improvement, a leaf science as that inaugurated by the discovery of CAREY'S CATHARTIC ANDIES. The days of disgusting and dangerous pills, made of mercury and aloes, of nauseous salts and seans, of sicalal and rhubarh powders, are now numbered; a new era opens up; the medicinal properties of the nece and most expensive drugs have been, by analysis and to be converted and most expensive drugs have been, by analysis and their useless particles, every values of smell and taste removed, and made into the form of delicious cancies. There is no longer a necessity for parents forcing them selves or their children to swallow and strangle with loathsome-tasting physic.

CAREY'S CATHARTIC CANDIES.

Have valuable medical properties that no pills or powders ever can possess. They can be given to those with the most delicute stomachs, without the slightest knowledge that they are taking physic; they are not to be swallowed whole, being the same in the centre that they are on the outside, place one in the mouth before retiring for the night, allow it to dissolve slowly away—its taste will be found delicious, while there are variety of flavors to sufficerly palate. For all disease originating in the Stomach, the Bowels, the Liver, ohe Kidneys, there has never been a medicine in exist noe that could equal them. They are purranteed not ceonitain a single particle of Mercury or other mineror or corrosive substance, and can be given to the weak st infant with periect safety. Their penetrating properties cleanse and invigorate every portion of the human body, correcting its diseased action and restering its health, strength and visor. Their effect upon the blood is to purify it from all unhealthy humors, and to instill into it a new life and richness that will cause the oldest and most aggravated complaints to specify and permanently disappear. Subjoined is the certificate of the celebrated chemist, M. V. S. Bullton, the highest authority in the United tates, who has
